Varsity Martial Arts League
12285B World Trade Drive
San Diego, CA 92128

Dear Sir,

Thank you so much for developing this amazing program! Until now, our martial arts athletes have been training year round and competing, but have had no tangible means of showing their fellow athletes and potential colleges how much they have accomplished. I am thrilled that this varsity letter program allows these hard working kids to have the same opportunity and measure of success as other high school athletes.

Last year my daughter earned her junior varsity letter. She had been attending classes regularly, competing and assisting in the classroom throughout the school year. Imagine my surprise when she ran whooping and yelling down the hallway, screaming, "I did it, I did it!" I got an enormous hug, a big grin and the explanation, "I earned my letter, Mom!" Thank you for providing this rewarding experience for her.

Since receiving her Junior Varsity letter, her attitude towards training has changed. She is more enthusiastic than ever and determined to take her training to the next level and earn her Varsity Letter this year. It is really about time that martial arts athletes can be recognized for what they have accomplished through hard work, sweat, commitment and focus. So again, I appreciate the dedication it took to ensure that our children have the same rewards available to them as other high school athletes. Thank you.

Sincerely,

Jillian McMahan
